January 14, 2010

The Center for Disease Control has issued the following immunization recommendations for all parties traveling to the location you may soon be traveling to.

Hepatitis A or IG, Hepatitis B, Typhoid, Rabies, and Malaria.

As this precaution is only recommended by the CDC, we cannot enforce these immunizations to be obtained. However, it is our desire that all precautions be taken to ensure the highest level of safety for our employees.

If you choose to not act on this recommendation, we will not be held responsible or liable for any resulting consequences regarding these health issues.

Please sign below in front of a witness acknowledging that you have read and accept these terms of deployment to your assigned operation.
